An educational experience, a personal experience, an unforgettable experience.

TOLEDO

Toledo, placed in the heart of Castilla-La Mancha, the land of Quixote, is an incomparable setting to study Spanish.

World Heritage City, it is also known as the **City of Three Cultures** because of the historical coexistence of Christians, Jews and Muslims inside its walls.

Toledo, with its exceptional monumental sites, offers international students a safe environment that is not crowded with foreigners, where they can achieve their desired Spanish level. The academic excellence of our university, the intense cultural life and the many opportunities available for entertainment in a friendly surrounding, are some other added values.

Toledo is conveniently connected by bus and high-speed train to Madrid, and it is possible to reach the heart of Spain's capital in less than 30 minutes.

THIS YEAR, ... TOLEDO, NO MATTER WHAT. In November 2026, our city celebrated its 40th anniversary as a World Heritage Site. Toledo boasts the second-largest historic center in the world in terms of the concentration of monuments, surpassed only by Rome.
In 2027, it will continue to treat us to innovative events and activities that, as they do every year, will enrich our city's already extensive cultural and recreational offerings.

OUR BUILDINGS

Exceptional learning surroundings

One of the many privileges of studying Spanish language and culture at the University of Castilla-La Mancha in Toledo is the chance of taking lessons in its buildings, which are monumental sites and World Heritage.

UNIVERSITY BUILDING OF SAN PEDRO MÁRTIR

In 1407 this building became the seat of the Benedictine order and an important part of Spanish history.

It held the first printing press in Toledo, it was later taken by the French troops and it was a source of inspiration for Bécquer's legends. It was also poet Garcilaso de la Vega's last home.

Impressive cloisters and quiet corners will become perfect learning premises.

CONVENT OF THE MOTHER OF GOD

You will get into this secluded convent through an outstanding mudejar-style door. This building holds the university canteen, the library and the classrooms.
It provides the necessary peace and quiet to study.

CARDINAL LORENZANA'S PALACE

This 18th century neoclassical building was designed by Cardinal Lorenzana. He made it the seat of the University of Toledo.

FACULTY OF HUMANITIES

Juan de Padilla, one of the leaders of the Revolution of the Comuneros, was born and lived in this 15th century building..

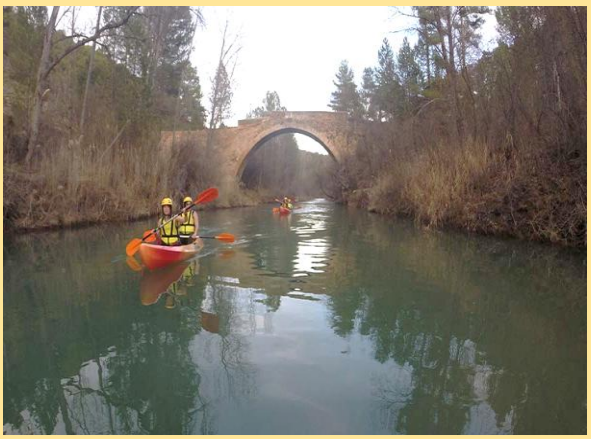
DISCOVER OUR NATURAL HERITAGE

FIELD TRIP TO CUENCA

This excursion is scheduled for Saturday so we can enjoy a relaxing day together.

Nature embraces Cuenca and blends seamlessly with the city, a perfect example of urban integration into a uniquely attractive natural environment. The spectacular gorges of the Júcar and Huécar rivers sculpt the landscape, forming a natural heritage site that invites exploration.



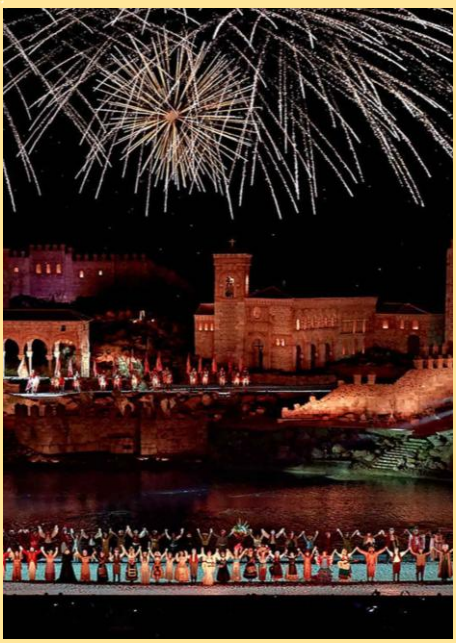
There's nothing better in the summer than connecting with nature and our rivers.

The Júcar River offers us the chance to explore it by canoe or kayak and take a relaxing dip in its waters, surrounded by nature.

The package includes bus transportation, an instructor/guide, the river trip, a swimming area, and lunch.

THE SHOW OF OUR HISTORY

WE'RE GOING TO PUY DU FOU!



Enjoy Toledo's cultural heritage in a different way through an unique night show that offers a journey through the most important milestones in the history of Spain and Toledo.

This multi-award-winning show tells the story of Spain from the reign of the Visigoth king Recaredo to the arrival of the railroad.

1500 years of history told by its protagonists on a huge stage.

Music, dance, and impressive sets for a historic and unforgettable summer night.

2027 SPECIAL ACTIVITY

SUNSET AMONG THE WINDMILLS

Consuegra is one hour far from Toledo and it is considered the image of La Mancha, as it is one of the villages described by Cervantes in his works and one of the most representative places of la ruta del Quijote.

This year we want to take all our students to visit this well-preserved monumental site .

This is the first time we have included this excursion in our cultural program and we hope our students will enjoy the experience. We will be visiting Consuegra's magnificent medieval castle and then we are going to learn how the beautiful windmills work.

At the end of the visit we are going to have a picnic while we relax and enjoy the beautiful sunset among the windmills.
